

ARMEL P. SOBREVÍÑAS

COMPUTER ENGINEERING

Purok II, Barangay Barra, Lucena City, Quezon Province, Philippines

I Mobile No. (+63) 9957804820 | armelperjes1@gmail.com

SUMMARY

I am a graduate of Computer Engineering who is passionate about learning and exploring different areas of technology. I have experience creating simple applications and websites, and I gained basic knowledge in cybersecurity during my internship. While I do not yet have formal work experience, I am eager to learn, grow, and apply my skills in a real-world environment. As an entry-level candidate, I am committed to gaining experience and contributing positively to a team.

INTERN EXPERIENCE

Pasig City, Philippines

June - August 2025

Cybersecurity

- Assisted in monitoring and analyzing network security to identify potential threats and vulnerabilities.
- Supported the implementation of basic security measures, including firewall configuration and system updates.
- Helped maintain system security and ensure smooth network operations during internship activities.
- Gained hands-on experience in basic cybersecurity practices, troubleshooting, and IT support tasks.

PROJECTS

KINGFISHER WEBSITE WITH AI WRITINGTOOLS

- Developed a web-based platform for student journalists that integrated AI-powered paraphrasing, grammar checking, and transcription tools, resulting in improved writing efficiency, streamlined editing workflow, and enhanced content quality.

BARANGAY MANAGEMENT SYSTEM

- Designed and developed a desktop-based Barangay Management System that streamlined resident record management, document issuance, and report generation, while applying core OOP principles to create a modular and scalable system architecture.

RC CAR PROJECT

- Built and integrated a wireless robotic vehicle by assembling hardware components, implementing Arduino-based control systems with Bluetooth/RF connectivity, and applying circuit design and troubleshooting techniques to ensure reliable system functionality.

BUSINESS WEBSITE DEVELOPMENT

- Designed and developed a responsive website for a small family business, featuring user-friendly navigation, mobile compatibility, product display pages, contact forms, and essential business information to improve online presence and accessibility.

EDUCATION

Lucban, Quezon

June 2026

SOUTHERN LUZON STATE UNIVERSITY

Bachelor of Science in Computer Engineering

- Relevant Coursework: Programming, Web Development, Database Management, Computer Networks, Cybersecurity, Object-Oriented Programming, Embedded Systems, Software Engineering, and Data Structures & Algorithms.

CERTIFICATION

- ICpEP Regional Convention & CPE Challenge
- ICpEP Webinar: Cloud-Native Telecom Services
- Aws builder essentials

March 2024

November 2025

July 2025

TECHNICAL SKILLS

- Database Management Basics
- Programming Languages: Java, Python, C++, HTML, JavaScript
- Basic Electrical & Electronic Circuits
- Equipment Troubleshooting & Diagnostics
- Basic Networking & Cybersecurity
- Web and Application Development
